**CITY OF OCEANSIDE**

**Laurel Elementary Safe Routes to School Improvements  
CIP22-00003**

**ADDENDUM NO. 1**

The following additions, modifications and changes are hereby made to the Contract Documents and specifications for **Laurel Elementary Safe Routes to School Improvements CIP22-00003**.

**1. This addendum modifies the following:**

- Section 8: Special Provisions

**a. Specifically, the following is modified:**

**Replace:**

**8.22 RECTANGULAR RAPID FLASHING BEACON (RRFB) (Bid Item No. 23)**

Work shall conform to the Plan details, Standard Specifications, the 2022 Caltrans Standard Plans and Specifications, the 2014 CA MUTCD and to these Special Provisions.

Each RRFB system shall consist of a cabinet-based solar engine. The industry-standard cabinet will house the charge controller, flash controller, on-board user interface, wireless communications, and battery. The solar panel will be mounted separately from the cabinet and shall be available in top-of-pole and side-of-pole options. Each RRFB shall include from one to four light bars. The RRFB shall conform to all provisions of the MUTCD, Interim Approval IA-21 including flash pattern.

**Payment** - Payment for Rectangular Rapid Flashing Beacon (RRFB) shall be made at the unit price per each as shown on the Bid Schedule. Full compensation for the furnishing of all labor, equipment, and materials for performing the work shown on the plans or specified in the special provisions shall be considered to be included in the unit price and therefore no additional compensation will be provided.

**With:**

## **8.22A RECTANGULAR RAPID FLASHING BEACON (RRFB) (Bid Item No. 23)**

Work shall conform to the Plan details, Standard Specifications, the 2022 Caltrans Standard Plans and Specifications, the 2014 CA MUTCD and to these Special Provisions.

Each RRFB system shall consist of a solar-powered engine. The industry-standard engine will house the solar panel, charge controller, flash controller, on-board user interface, wireless communications, and battery. This containment shall be mounted to the top of the pole. Each RRFB shall include from one to four light bars. The RRFB shall conform to all provisions of the MUTCD, Interim Approval IA-21 including flash pattern.

**Payment** - Payment for Rectangular Rapid Flashing Beacon (RRFB) shall be made at the unit price per each as shown on the Bid Schedule. Full compensation for the furnishing of all labor, equipment, and materials for performing the work shown on the plans or specified in the special provisions shall be considered to be included in the unit price and therefore no additional compensation will be provided.

### **Questions**

The following is a list of questions and answers that have been asked that are important to the Invitation to Bid:

#### **Question #1**

Question: What is the engineer's estimate?

Answer: The engineer's estimate is #1,650,000 - \$1,850,000.
